

What the Heck is LFEC?

(Local Facility Engagement Committee)

Have your Voice Heard!

Dr. Kevin Wiseman, back in 2018, was the President of the Vernon Jubilee Hospital Physician Society. He had the vision to create an opportunity to bring critical individuals together regularly to provide the medical staff with a **stronger voice at VJH**. The LFEC was born. LFEC offers an excellent opportunity for the physician staff to have a direct line of communication with and the ear of senior administration at our site. If something is on your mind, give the meeting a go; you will find it well worth your while. Meetings are held at 3:30 – 5:00 PM on the 3rd Wednesday of the month RSVP to [Events - Vernon Physician Society](#)

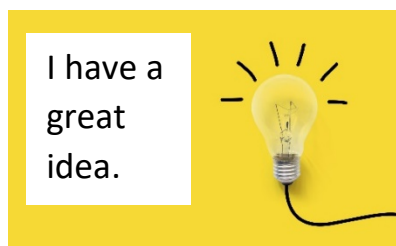

At present, the committee is made up of the following individuals:

Dr. Ed Hardy, LFEC Chair
Dr. Andrew Sellars, Senior Medical Director IH North
Dr. Peter Bosma, VJH Chief of Staff
Richard Harding, Executive Director, Clinical Ops, Acute NOK
Kelly Chapman, VJH Director, Clinical Operations
Casey Hewes, VJH Director, Clinical Operations
Dr. Kira McClellan, President, VJHPS
Dr. Yann Brierley, Vice President, VJHPS
Dr. Jason Doyle, Secretary-Treasurer, VJHPS
Anna Flasch, Project Manager, VJHPS
Maja Keast, Administrative Assistant, VJHPS

The LFEC serves as a forum for sharing information about initiatives between Facility Engagement (VJHPS), Local Medical Advisory Committee (LMAC), Medical Staff Association Executive and senior regional Health Authority executives.

Do you have an idea? Bring it forward to this group to help improve your work environment and patient care at VJH. **Email: projectmanager@vernonphysiciansociety.ca**

SEE IT. THINK IT. DO IT.
