

## SOUTHERN MEDICAL PROGRAM

YEAR 3 INTEGRATED COMMUNITY CLERKSHIP STUDENTS  
VERNON JUBILEE HOSPITAL  
JUNE 2023 TO MAY 2024

FACULTY OF MEDICINE

### Lauren Bondi

Born and raised in Vancouver, I spent my undergraduate years in New England completing my BA in Neuroscience at Smith. I played varsity basketball there and really enjoyed being a part of a small, tight-knit community. After graduation, I spent a couple of years back home in Vancouver before starting medical school at UBC. I coached a youth girls team on the North Shore and worked as Hiring Coordinator for Pedalheads Bike Camps. I picked up downhill skiing and had a ton of fun exploring parts of the Island and Kootenays. I'm really looking forward to becoming a part of the Vernon ICC family and experiencing life and medicine in the Okanagan.

### Callum Hicks

I am thankful for the opportunity to continue my training at Vernon this year and to head back to the interior region. Growing up in Revelstoke, I loved playing sports such as soccer, ski racing, and volleyball, and basketball. My passion for sports quickly turned into a passion for the outdoors, and I spent my time skiing, biking, running, and climbing. I moved to Vancouver to do my undergrad in biochemistry while wildland firefighting every summer out of Revelstoke. I've spent the past two years at VFMP enjoying all the mountain biking, trail running, and climbing that the coast has to offer, but I'm excited to trade the oceans for snow and the comfort of smaller towns. I'm excited to meet everyone and become a part of the community!

### Christian Mustapich

Growing up on Vancouver's North Shore, I split my time between playing outdoors and playing sports. I stayed local to complete my undergraduate degree in Kinesiology at UBC, where I also worked as an athletic trainer for our varsity men's hockey team. Before beginning medical school, I spent a year working as both a Kinesiologist and as a property maintenance technician. Outside of school, not much has changed. I still spend most of my time hiking, camping, fishing, skiing, golfing and playing hockey. I've been lucky enough to have spent some time in the North Okanagan in the past, and I couldn't be more excited to be part of the Vernon community this coming year!

### Madeson Todd

My home is Calgary, but I also spent time in Pincher Creek and Denver growing up. I graduated from UBC in 2020 with a B.Sc. in Integrated science and a minor in Spanish, followed by a Masters of Biomedical Technology at UofC. Over these years, I've been involved with several research projects focusing on mental health, sexual medicine, bringing birthing back to Indigenous communities and developing a program to encourage Indigenous youth to pursue careers in STEM. Outside of school, I love exploring the outdoors, cabin weekends, skiing, cooking, playing card/board games and spending time with friends and family. After two amazing years of medical school at VFMP, I am so excited to work in a smaller community, get to know Vernon, and become part of the Vernon ICC Family!
